

# How to Manage Ulcerative Colitis with Herbal Remedies

This will explain how to handle an Ulcerative Colitis flare up without having to head to the doctor for steroids.

### **Steps**

- At the first sign of an attack, take 3 30xNux Vomica<sup>[1]</sup> and 3 30x Lycopodium Clavatum pellets every 5 minutes until you feel your gut start to relax.
- Increase electrolyte intake generally you are losing a lot of electrolytes.
- **Start with Slippery Elm.**<sup>[2]</sup> Once you are used to it, you can take up to 6 capsules three times a day, or a heaping tablespoon mixed with water twice a day. Slippery elm will help make up for the inflammation that is occurring in your intestines
- 2 capsules a day Marshmallow Root this is to calm the inflammation of the mucosa.
- 5 Stop all caffeine, alcohol and refined sugars you need to slow down and cool down your stomach. \*\*THIS IS CRUCIAL. YOU MUST ADJUST YOUR DIET.
- If possible, switch to a diet of soups, well cooked veggies and meats, and whole grains. Avoid all fried, processed and fatty foods, as they usually make the problem worse.
- If the attack has not slowed down by the next day, make an acupuncture appointment. One treatment will usually stop the attack.
- R Take slippery elm at high dose for at least a week after the attack has calmed down.

# **Tips**

- Do not put yourself in positions where running to the toilet will be difficult. It is better to cancel plans then to go somewhere and be anxious.
- Try hard with the dietary suggestions. They are ultimately the most important part of maintaining your digestive health.
- Do not get frightened or anxious if you can avoid it. Remind yourself that this is just you managing your body.
- Do deep breathing exercises inhale for 8 counts, hold for 4 counts, and exhale for 8 counts. Do repeatedly for about 5 minutes.

## Warnings

• If you are losing a great deal of blood after the second day, make an appointment to see your specialist.
