

35: Sunshine Revolution. Røstvig, Norway/USA 1992.

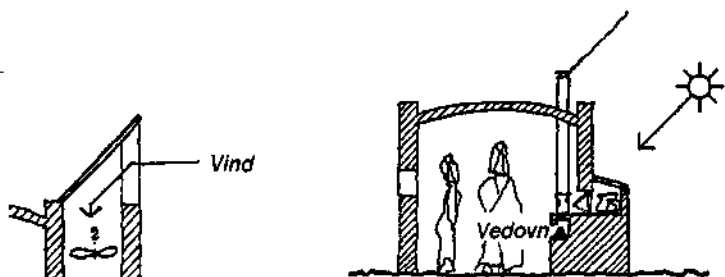

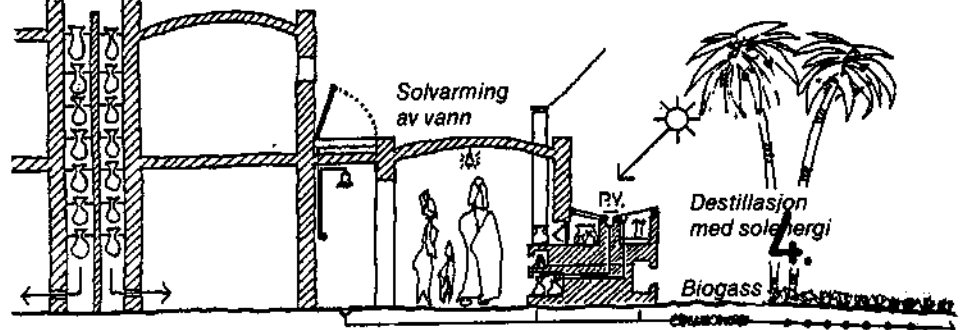

1.

2.

3.

Kjøling ved fordampning

Dusj og toalett

Solenergi, ved og biogass til koking. Solenergi

til destillering av vann og til kjøling.

Rensing av avløpsvann

Skissen viser hvordan man skritt for skritt, ved hjelp av lokale byggematerialer og energikilder kan forbedre de boligløses kår. Skissen er hentet fra den premierte besvarelsen som arkitekt Harald N. Røstvik deltok med i FNs arkitektkonkurranse i forbindelse med bolignødsåret.

The main resources to be combined are :

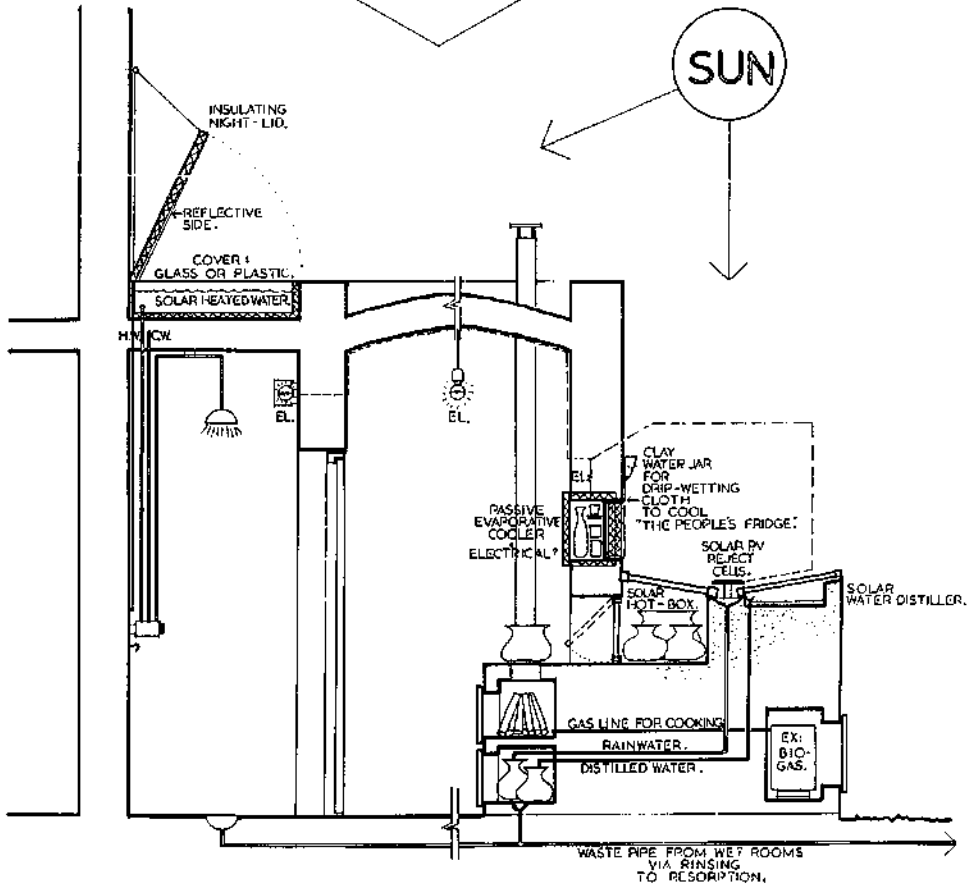

- Local people.
- Local building materials.
- Local techniques.
- Local energy.

The hierarchy of values - in line of order :

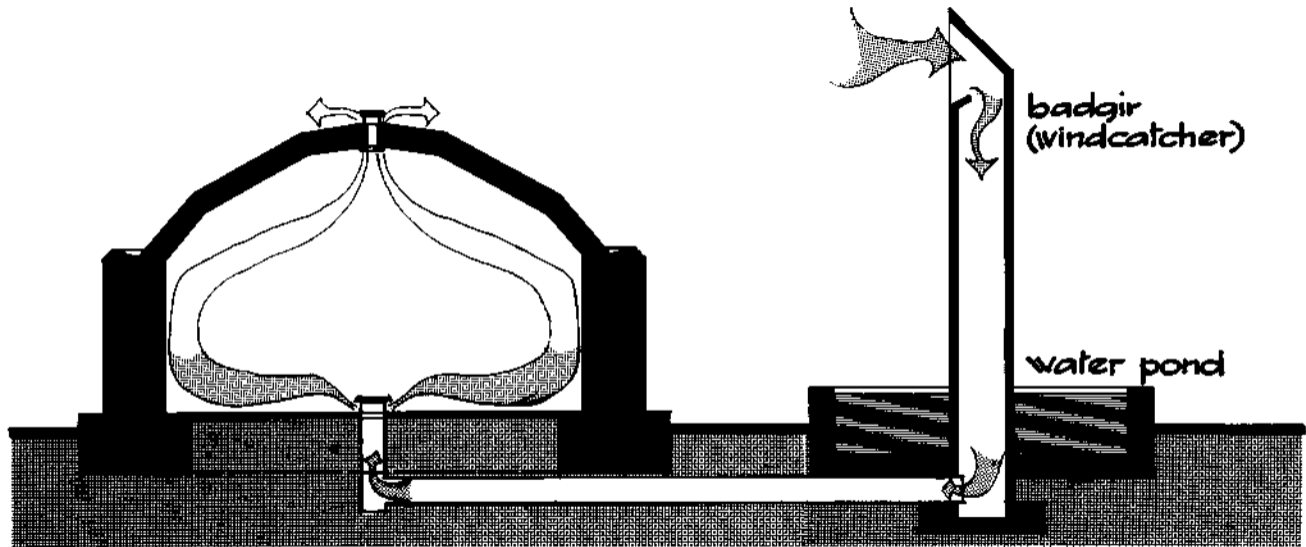

1. ECOLOGICAL LIMITATIONS.

2. STEP BY STEP PROCESS.

3. HELP TO SELF HELP PROCESS.

FULLY DEVELOPED VERSION.

natural air-conditioning system (evaporative cooling)
